Continuation Sheet (PTO-303)

Continuation of 3. NOTE: Independent claim 18 has been amended to recite "a controller which shifts the entire scale of the melody data inputted by the input unit when a frequency of the inputted melody data is not in a predetermine range". Independent claim 23 has been amended to recite "a controller which changes the frequency spectrum of a melody data inputted by the input unit to produce a melody data whose frequency spectrum is in a range between a first frequency and a second frequency when a frequency of the inputted melody data is not in the range". Independent claim 25 has been amended to recite "shifting the entire scale of the inputted melody data when the frequency of the inputted melody data is not in the predetermine range". Independent claim 30 has been amended to recite "changing all of the frequency components of inputted melody data to produce melody data whose frequency components fall within a range between a first frequency and a second frequency when a frequency component of the inputted melody data is not in the range". Amendments to independent claims 18, 23, 25, and 30 has raise new issues that would require further consideration and/or search.
